

ACTION

Can't afford health insurance because your income is too low to qualify under the Affordable Care Act and you don't qualify for Medicaid?

DO YOU WANT TO HEAR FROM YOU.

Nebraska has not expanded its Medicaid program under the Affordable Care Act, so a health insurance coverage gap has been created.

If you make less than 100% of the Federal Poverty Level (\$11,880 for an individual, \$20,380 for a family of three) you do not qualify for tax credits through the Marketplace and may not be able to afford private insurance. You may also be ineligible for current Medicaid (if you are not a pregnant woman, aged, blind, or disabled, low income parent, or do not meet the income and eligibility guidelines).

Do you fall in this gap? Contact us.
